## C.N.C lathes

C.N.C. lathes range with power tools:

### C.N.C. horizontal lathes

Bar feeder from 1 to 90 mm

Turning length from 1 to 1100 mm

Turning diameter from 1 to 750 mm

### C.N.C. vertical lathes

With automatic loading and maximum capacity 220 mm

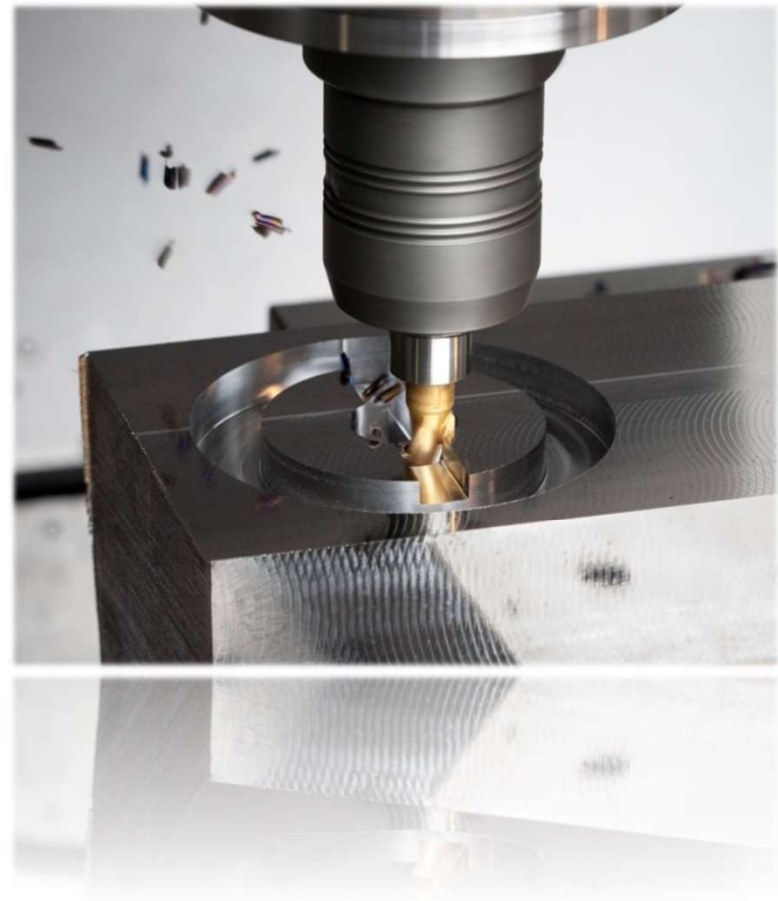

## Machining centers

Machining centers range with:

Fixed bed from 400x300  
mm to 1100x600 mm

Verticals from 300x200  
mm to 500x500 mm

Fixed bed with 4th axis  
700x950 mm

## Others

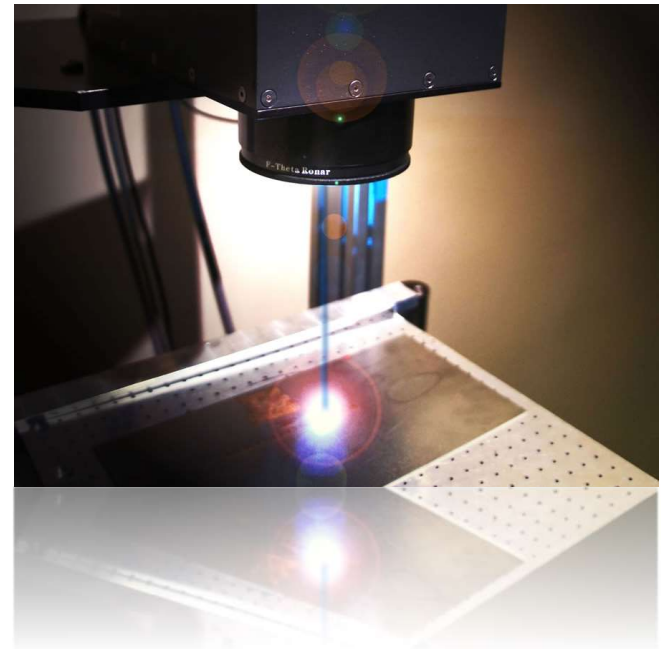

Assembly lines for sets

Wire welding

Disc cutters for aluminum

Band saws up to ø 400 mm

## Quality certificates

– **Albizuri** has established a Quality Management system, based primarily on:

- Customer focus.
- Leadership.
- Staff participation.
- Process based approach.
- System approach to management.
- Continuous improvement.
- Factual approach to decision making.
- Mutually beneficial supplier relationships.

## Laboratory and Metrology

- **Albizuri** has a modern laboratory area within the production plant, with dimensional metrology and metallography advanced systems, where we apply the most thorough analysis to the manufactured products.
